TO: Embassy or Consulate

RE: LI JIAHE

Email: erikaqwwwq@gmail.com

Address: Road 38 West Lake District, Zhejiang University Yuquan Campus
Hangzhou, Zhejiang, China

The Association for Computing Machinery (ACM) is a non-profit international scientific and educational organization dedicated to advancing the art, science, engineering, and application of information technology, serving both professional and public interests by fostering the open interchange of information and by promoting the highest professional and ethical standards. ACM will be sponsoring KDD '23: The 29th ACM SIGKDD Conference on Knowledge Discovery and Data Mining taking place in Long Beach CA USA between August 6, 2023 - August 10, 2023. Attendance is open to all those interested in the subject matter.

LI JIAHE is an author of a paper accepted for presentation at this conference entitled, Accelerating Dynamic Network Embedding with Billions of Parameter Updates to Milliseconds. Authors are expected to attend the conference to present their research and answer questions about it.

The importance of computing to the future is unquestioned, and the critical role of the computing professional is constantly changing. ACM's broad array of life-long learning and skill development opportunities include tutorials, workshops, conferences, online books, online courses, and the ACM Digital Library. This extensive range of options and opportunities make it possible for computing professionals to keep abreast of technology and maintain a competitive advantage.

The Association for Computing Machinery (ACM) is the world's leading educational and scientific computing society and the resource for lifelong learning in the rapidly changing field.

Sincerely,
Donna Cappel
